

Web Site Launch

The South West Legal IT Forum - the premier networking forum for Legal IT professionals in the South West peninsula (Bristol, Somerset, Dorset, Devon and Cornwall) has consolidated its existing web presence on Twitter and LinkedIn with an exciting new website – www.southwestlegalit.com - powered by Nexus Open Systems.

The members of the South West Legal IT Forum represent law firms and suppliers spread across a 200 mile peninsula.

This area incorporates cities, towns, villages and hamlets in one of the most beautiful regions of the country.

Here, significant business is conducted from high street to City style law firms.

The South West Legal IT Forum membership incorporates *Legal Week's* Regional Law Firm of the Year as well as many top 100 and top 200 law firms.

The South West Legal IT Forum offers an informal setting to discuss technology opportunities, issues and solutions affecting law firms, products and support as well as sector strategy discussions with peers. "A very well run event, and an ideal forum to exchange views" (Charles Christian, *Legal Technology Insider*).

Having a meeting each quarter, the last being held at regional heavyweight Bond Pearce, the Forum has a growing membership of over 20 law firms. An active Premier Partner sponsorship model also ensures that quality solution providers mix with technology decision makers.
